A look at the information found on the front of your utility bill:

- 1 This shows the water usage in 1,000 of gallons between meter reads in your home or business.
- 2 This reflects the dates the meter was read for this billing cycle and the prior cycle.
- 3 This indicates if your reading is actual or an estimate. If estimated, your meter is not connecting to our reading equipment automatically. Please call the Village Hall office at 847-683-2181, X-22.
- 4 The graph reflects your historical water usage and can be an indicator of a problem. In this case all was good; the resident power washed their home and used a lot of water!
- 5 This is the cost for water usage – the unit cost is multiplied by the amount of water used.
- 6 This is the cost for wastewater treatment services – the unit cost is multiplied by the amount of water used and \$1.00 is added.
- 7 This capital improvement charged based on the water and sewer services you receive at a rate of \$5.00/month per service.
- 8 This is your cost for garbage collection. Call us if you are 65 or over; you are eligible for a senior discount.
- 9 Be sure to enclose the lower part of your bill (coupon) with your payment.
